ROSES — The Queen of Flowers

These are up-to-date varieties which have been tested to prove their ability to bloom for you. All are two or three years old. We will send them to you dormant or you can select them at the nursery growing in Clover-set pots. Forty varieties with hues of the rainbow to select from.

This little folder lists only a few of our 3000 varieties which we grow on our 150 acres of nursery. Write us for prices on any other sizes or varieties you may wish. We will have it.

HYBRID TEA ROSES

75c each; 10 for \$7.00

Pink.

BUSH ROSES

60c each; 10 for \$5.00

Rosa Hugonis (*Father Hugo's Rose*). A single yellow shrub rose. Extremely hardy and prolific bloomer. Up to 4 ft. tall. An extremely desirable plant.

Rosa Rugosa. Large single pink flowers which occur constantly all through the season. The large scarlet seed pods are equally ornamental. Height 3 to 4 ft.

Rosa Rubifolia. A truly red leaf rose. Upright in growth with graceful arching branches. Also single pink flowers are followed by a multitude of large red fruits.

Rosa Nitida. A vigorous, green foliaged, arching branched rose with single pink flowers followed by multitudes of coral bead-like fruits which persist far into the winter and are extremely popular with the birds.

SERVICES AND SPECIALTIES

LANDSCAPE SERVICE

If you will bring or mail us a photo of your house with the measurements we will be glad to make suggestions for suitable material for planting it or we will be glad to send our landscape man to talk with you about your planting problems.

LARGE TREES

Why wait years for shade when we have available and can furnish you large shade trees which will give you immediate shade.

SPRAYING

We are equipped to do your spraying with the latest power equipment which enables us to do the job most thoroughly. We also will feed and care for your trees. Feeding is often as necessary as spraying. Consult us for tree information or service.

HOW TO PLANT

Trees, shrubs, vines, evergreens, fruits and bulbs. A free copy of this instructive booklet free with every order. Additional copies, 10c each.

EVERGREENS

for Year Around Pleasure

The following are a few of the large number of varieties of evergreens which we have for brightening up your home surroundings in the barren winter months and to act as a lovely green background for flowers in the summer.

Dwarf Evergreen Varieties

Arbor-Vitae woodwardi Globe (Globe Arbor-Vitae). The familiar round form of "flat leaf" Arbor-Vitae. This is one of the true dwarfs, never exceeding four feet in height with about the same spread. Our type grows snug to the ground, hence, is a better subject for use in plantings. Use in sunny locations except where very dry or exposed to reflected heat. Also at home in partly shaded locations.

1 to 1½ ft. plants...\$1.50 each; three for \$4.00
1½ to 2 ft. plants... 2.50 each; three for 6.00

Biota aurea nana (Berckmann's Golden Biota). A dwarf oval plant with striking golden foliage. Never exceeds three to four feet tall and half as broad. Plant in a hot sunny place or in the open. Good for cemetery use or foundation planting.

12 to 15 in. plants...\$1.25 each; three for \$3.50
15 to 18 in. plants... 1.50 each; three for 4.00
18 to 24 in. plants... 2.75 each; three for 7.00

Biota compacta. A fresh green replica of the above golden dwarf Biota. Always a noteworthy plant.

15 to 18 in. plants...\$1.50 each; three for \$4.00
1½ to 2 ft. plants... 2.00 each; three for 5.50

Juniperus andorra. The famous red evergreen. A very low growing, spreading gem of the plant world. Valuable as an edging plant in groupings and for walls, rockeries and terraces. Grows no more than twelve inches high but may become several feet across unless trimmed. Blue-green in summer and a rich plum color in winter.

12 to 15 in. plants...\$1.20 each; three for \$3.25
15 to 18 in. plants... 1.40 each; three for 3.75
18 to 24 in. plants... 1.80 each; three for 5.00

Juniperus chinensis pfitzeriana (Pfitzer's Juniper). The most popular spreading, semi-upright evergreen for universal use. Will grow in almost any location. Foliage is blue-gray to green and branches are especially plumelike. Will grow in semi-shade or hot dry exposures.

15 to 18 in. plants...\$2.25 each; three for \$6.00
1½ to 2 ft. plants... 3.00 each; three for 7.50
2 to 3 ft. plants... 3.75 each; three for 9.50

Juniperus sabina von Ehron. A deep green plant of vigorous spreading habit and rapid growth. Excellent for use where green foliage is desired in a "Pfitzer-like" form. Best used in the sun.

1 to 2 ft. spread...\$1.50 each; three for \$4.00
2 to 2½ ft. spread... 2.50 each; three for 6.00

Pinus montana mughus (Mugho Pine). This is the low cushion form of Pine whose inch long needles carry a bright green color the year around. In the spring each of the multitude of stems sends up a candle which opens later into new growth. Compact well-shaped plants. Good in sun or semi-shade. Height seldom ever exceeds 2 feet.

10 to 12 in. spread...\$2.00 each; three for \$5.00
12 to 15 in. spread... 2.50 each; three for 6.75
15 to 18 in. spread... 3.00 each; three for 8.00

Taxus cuspidata (Spreading Yew). This is one of the outstanding evergreens because of its glistening fresh green foliage the year around and its attractive transparent scarlet fruits. Graceful compact branching habits. Use in shade or sun except in very dry locations.

15 to 18 in. spread...\$2.75 each; three for \$ 7.50
1½ to 2 ft. spread... 4.00 each; three for 10.50

Varieties of Medium Height

Biota Burtoni. A thick blue-green foliage which remains the same color through the winter distinguishes this new variety which originated on our own nursery. It grows to a height of six feet but can be kept lower by shearing. It is approximately half as broad as tall.

1½ to 2 ft. plants...\$2.50 each; three for \$6.45
2 to 2½ ft. plants... 3.00 each; three for 7.00

Juniperus communis vase (Vase-Shaped Juniper). A medium height, four foot maximum, evergreen with a symmetrical vase shape, flaring out from the roots in each direction to form a solid rim about an open hollow center. Unusual in form. Desirable in color and habit. Likes the sun but will tolerate some shade.

1½ to 2 ft. plants...\$1.50 each; three for \$4.00
2 to 3 ft. plants... 2.00 each; three for 5.00

Juniperus squamata meyeri. A medium height, intensely blue foliage, interestingly branched plant. A welcome variety in any planting. Brightens up the foundation planting or rock garden. An entirely new color in the evergreen group.

15 to 18 in. plants...\$2.00 each; three for \$5.00
18 to 24 in. plants... 3.00 each; three for 7.50

Tall Upright Varieties

Abies concolor (White Fir). This is an ideal plant for the lawn specimen. Its soft blue-colored needles and perfect form make a lovely combination. Always beautiful, never gaudy. It will tolerate some shade but should be planted alone, in pairs or widely spaced groups.

18 to 24 in. plants...\$2.50 each; three for \$ 7.00
2 to 3 ft. plants... 3.75 each; three for 10.00
3 to 4 ft. plants... 4.50 each; three for 12.00

Also other sizes up to 8 ft.

Arbor-Vitae pyramidalis. This compact narrow green variety forms a dense thick column. Most useful in locations without reflected heat and in moist soils. The most widely planted evergreen of all.

1½ to 2 ft. plants...\$1.50 each; three for \$4.00
2 to 3 ft. plants... 2.50 each; three for 6.50

Juniperus chinensis (Chinese Juniper). This upright narrow pyramidal tree is the answer to the need for a plant in hot dry locations. A vigorous grower of blue-green color. Use this variety for the upright plant in your groupings. Sturdy and beautiful.

1½ to 2 ft. plants...\$1.75 each; three for \$4.50
2 to 3 ft. plants... 2.50 each; three for 6.50

Juniperus virginiana, Dundee. Pyramidal shaped Juniper with single leader. Full compact grower. Blue-green summer color with purplish cast over outer foliage in winter. Very hardy; takes the sun and will withstand reflected heat near walls.

2 to 3 ft. plants...\$3.00 each; three for \$ 8.00
3 to 4 ft. plants... 5.00 each; three for 12.00

Spruce, Koster Blue. The true grafted type with the brightest blue color of all. Every plant uniform because they are grafted. The most desired lawn specimen of all. The foliage tree you have always desired.

1½ to 2 ft. plants...\$4.50 each
2 to 2½ ft. plants... 5.50 each
2½ to 3 ft. plants... 6.50 each

Broad-Leaf Evergreens

Euonymus patens (Japanese Evergreen Euonymus). A low bushy shrub with rounded glossy leaves. The masses of small fragrant white flowers are followed by orange-colored, bittersweet-like fruits. Excellent for grouping with evergreens or as hedges.

12 to 15 in. plants...\$0.60 each
15 to 18 in. plants... .80 each
18 to 24 in. plants... 1.00 each
B&B 15c extra or free if three or more plants are desired.

HEDGE GRADES

8 to 10 in. plants...\$0.25 each; 25 for \$5.00
12 to 18 in. plants... .42 each; 25 for 7.50

Mahonia aquifolium (Oregon Holly). Low growing. The holly-like leaves are evergreen. In the spring masses of fragrant yellow flowers are produced followed by blue-black berries. Tolerates sun or shade.

15 to 18 in. plants in Clover-set pots...
.....\$0.75 each; three for \$2.00
1½ to 2 ft. plants, B&B...
.....\$1.75 each; three for 5.00

Pyracantha lalandi (Firethorn). A compact well-rounded shrub which hold their deep green leaves all winter. White flowers in masses followed by clusters of bright orange-scarlet berries. The small sizes are excellent for hedges.

15 to 18 in. plants, B&B...\$1.50 each
1½ to 2 ft. plants, B&B... 2.00 each
Hedge grade plants from 3-in. pots...
.....\$0.50 each; 25 for \$10.00

All the above Broad-Leaf Evergreen prices include digging with earth balled around roots and wrapped in burlap (B&B), with the exception of Euonymus patens.

Abies concolor—White Fir

Pinus montana mughus—Mugho Pine

Juniper sabina von Ehron

Taxus cuspidata—
Spreading Yew

Mahonia aquifolium—Oregon Holly

Koster's Blue Spruce

Arbor-Vitae pyramidalis

Biota aurea nana—Berckmann's Golden Biota

Juniperus Andorra

Pyracantha lalandi—Firethorn

Buddleia (Butterfly Bush)
Burton's Royal Purple

European Burning Bush

Spiraea Froebeli

Viburnum Burkwoodi

Calycanthus floridus—Sweet Shrub

FLOWERING SHRUBS

These shrubs are all two- and three-year field grown—strong, bushy—and well-rooted plants which will "take off" for you in a hurry, giving quick results. Better than most. Most sizes, especially the larger, should be sent by express.

Flowering Quince (Fire Bush). These upright forms grown from French hybrids. Flowers range from deep pink to bright scarlet and dark red. Foliage shows maroon coloration following new growth. Large fragrant ornamental yellow fruits in late summer.
2 to 3 ft.\$0.50 each; three for \$1.25

Dwarf Flowering Quince (Cydonia Pygmaea). Habit semi-upright; rather spreading; coral flowers in great profusion; never over 3 feet in height.
1½ to 2 ft.\$0.50 each; three for \$1.00
2 to 3 ft.60 each; three for 1.50

Buddleia (Burton's Royal Purple). A Butterfly Bush. Field-grown plants. Rich purple spikes of large size. Good dark green foliage. Strong grower. Field grown plants\$0.35 each; three for \$1.00

Ile de France. Dark red flowers, medium grower.

Field grown plants.\$0.35 each; three for \$1.00
Double Red Bush Honeysuckle (Lonicera Zabeli). An excellent new discovery. The darkest color in a desirable type. Foliage holds a good color and texture throughout the entire season. Maximum height 8 to 10 ft. May be kept lower.
2 to 3 ft.\$0.50 each; three for \$1.25

Variegated Leaf Cornus (Cornus elegantissima). The best silver and green variegated shrub. Wonderfully effective—grows in sun or shade to a height of four to five feet. Dark red branches for winter cheer.
2 to 3 ft.\$0.80 each; three for \$2.25

Fontanesia fortunei. This is an upright growing shrub with yellow flowers. A rapid grower. It is a good screen or border plant. Especially nice for a tall narrow hedge. The leaves are long and narrow, willow-like.
2 to 3 ft.\$0.40 each; three for \$1.00
3 to 4 ft.50 each; three for 1.25
2 ft. hedge grade, \$6.50 for 25

Euonymus yedoensis. This attractive Oriental shrub has scarlet berries borne in profusion in late summer. It is a good subject for border planting. Birds love the fruit. Grows in sun or shade.
2 ft.\$0.50 each; three for \$1.25
3 to 4 ft.80 each; three for 2.25

Calycanthus floridus (Sweet Shrub). This is the old-fashioned shrub. Its chocolate-colored flowers have a rich old-fashioned spicy odor especially when crushed. A fine shrub for the shady place with its attractive glossy leaves.
1½ to 2 ft.\$0.45 each; three for \$1.25
2 to 3 ft.60 each; three for 1.65

Red Barberry.
3-year, 15 to 18 in.\$0.35 each; five for \$1.25
3-year, 24 in. plants45 each; five for 2.00

Green Barberry.
3-year, 15 to 18 in.\$0.25 each; five for \$1.00
3-year, 24 in. plants35 each; five for 1.50
(See Hedges for smaller sizes.)

Spiraea vanhouttei (Bridal Wreath). The so-called white Bridal Wreath Spirea. Widely planted but one of the greatest shrubs of all.
2 to 3 ft.\$0.35 each; three for \$1.00
(For small size see Hedges.)

Philadelphus, Virginal (Double Mock Orange). A tall growing shrub with semi-double white flowers, richly fragrant. Often as large as silver half-dollars and entirely covering the stems.
1½ to 2 ft.\$0.40 each; three for \$1.00
2 to 3 ft.50 each; three for 1.25
3 to 4 ft.70 each; three for 2.00

Vitex macrophylla. Cobalt-blue flowers in long upright held spikes in late summer. The leaves are an unusual dark green shade and in five parts like the outspread fingers of a hand. Grows to a height of six feet. Prefers the sun.
2-year field grown\$0.60 each; three for \$1.70

Late Lilac (Lilac Villosa). True purple flowers in immense trusses. Large leathery leaves. A stately large growing plant.
2 to 3 ft.\$0.45 each; three for \$1.25
3 to 4 ft.60 each; three for 1.75

Viburnum carlesi (Pink Korean Snowball). Dwarf, shapely, fragrant. Sun or partial shade.
1½ to 2 ft.\$2.00 each; three for \$5.00

Nanking Cherry (Prunus tomentosa). A lovely well-rounded shrub which is a truly all-season plant. The soft pink flowers which cover this dwarf cherry bush appear along with the Golden Bells. The luscious red cherries, so appealing to the birds, appear in June and in late fall the foliage turns a bright golden hue.
2 to 3 ft.\$0.45 each; three for \$1.20
3 to 4 ft.60 each; three for 1.50

Viburnum Burkwoodi. The newest thing in a semi-evergreen exquisitely fragrant flowering shrub. The waxy, light pink, snowball-like flower heads are up to four inches across and appear early in May. This is an improved form of Viburnum Carlesi. Height five to six feet. Plant in sun or shade.
12 to 15 in., by mail. \$1.50 each; three for \$4.00
15 to 18 in., by mail. 2.00 each; three for 5.00
1½ to 2 ft., by express, B&B 2.75 each; three for 7.50

Persian Lilac. The most profuse and dependable bloomer year after year of the purple lilacs. Very fragrant with leaves smaller than the old-fashioned kinds. Height 8 to 10 feet.
2 to 3 ft.\$0.50 each; three for \$1.25
3 to 4 ft.75 each; three for 2.00

New Primrose Golden Bell (Forsythia primulina). Desirable upright form with "primrose-yellow" flowers. Very showy. The individual flowers are large and branches are loaded with bloom.
1 to 1½ ft.\$0.40 each; three for \$1.00
2 to 3 ft.50 each; three for 1.35

Shepherdia argentea. A very striking silver leaf plant of bright color through the whole season. Ultimate height not over six feet. Unusual. The sort of plant to attract attention and merit it.
4 to 5 ft.\$0.90 each; three for \$2.50

Dwarf Golden Privet (Vicary). A real dwarf, never over two feet tall, bushy and compact. Likes the sun. Useful for a spot of color or a dwarf hedge for edgings.
10 to 12 in. tall, for edgings\$0.35 each; three for \$1.00
15 to 18 in. tall, for edgings50 each; three for 1.40

Spiraea Froebeli. Dwarf pink Spiraea growing only to a height of three feet. These vigorous little plants like the sun. In early summer they are covered with flat pink blossoms. In autumn the foliage ranges from scarlet to maroon.
2 to 2½ ft.\$0.35 each; six for \$1.75

Tamarix. A tall shrub with feathery bright green foliage somewhat like cedar in appearance. A mass of soft pink flowers in May before the foliage appears.
2 to 3 ft.\$0.35 each; three for \$1.00
3 to 4 ft., heavy45 each; three for 1.20

Smoke Tree (Rhus cotinus) (Purple Fringe). So named for the misty purplish flowers that cover this attractive shrub. Foliage turns scarlet in fall. Nicely shaped shrub for the border or as a specimen.
2 ft.\$0.75 each; three for \$2.00
3 to 4 ft.90 each; three for 2.50

European Burning Bush. The fruits which cover its branches almost completely in autumn, are at first rich pink—then open to a brilliant orange-scarlet, showing the three or four bittersweet-like seeds held within.
2 to 3 ft.\$0.40 each; three for \$1.10
3 to 4 ft.60 each; three for 1.50

Philadelphus, Virginal—
Double Mock Orange

Red Barberry

Tamarix

Flowering Quince (Fire Bush)

SPECIAL BARGAINS

Shrubs in small sizes (1 to 2 ft.) for those who are willing to wait. These are excellent plants but younger than our regular sizes.

3 of any one variety for \$0.48 postpaid.
25 of any assortment of the following varieties, \$3.25, postpaid.

Forsythia
Bush Honeysuckles
Persian Lilac
Mock Orange
Red Twig Cornus
Golden Twig Cornus
Spiraea Vanhouttei (Bridal Wreath)

Tamarix
Dwarf Ninebark
Green Leaf Barberry
Red Leaf Barberry
Spiraea Froebeli (Dwarf Pink)
Russian Olive

Variegated Leaf Cornus—
Cornus elegantissima

SHADE TREES

Chinese Elm. This new rapid growing small leaf tree, so popular of recent years, tolerates extreme drouth and smoke.
 6 to 8 ft.\$1.75 each; \$3.25 a pair
 8 to 10 ft. 2.50 each; 4.50 a pair

American Vase Elm. The typical vase headed American Elm. These are of a desirable uniform type secured by grafting.
 6 to 8 ft.\$1.50 each; \$2.75 a pair
 8 to 10 ft. 1.75 each; 3.00 a pair

We have other varieties and other sizes of shade trees up to ten inches in diameter.

Bechtel's Double Flowering Crabapple

With each order we will send our helpful culture booklet—a wealth of information.

Chinese Elm

HEDGE MATERIALS (All Hardy)

Prices of Hedge materials express shipment only.
Amur River North Privet. Hardest upright growing Privet for hedges.
 12 to 18 in., 1 yr.\$ 4.50 per 100
 18 to 24 in., 2 yr. 8.00 per 100
 2 to 3 ft., 2 yr. 10.00 per 100
Ibodium Privet. Glossier leaves and more spreading than other Privets.
 18 to 24 in., 2 yr.\$8.00 per 100
Vicary Privet (Dwarf Golden Ibota). The finest dwarf golden plant in cultivation for hedges. Likes the sun.
 10 to 12 in., 2 yr.\$30.00 per 100
 15 to 18 in., 2 yr. 50.00 per 100
Regel Privet. A horizontal branching, glossy leaved type with sweet scented white flowers. Shears compactly or grows naturally with graceful horizontal branches. Considered by many authorities the hard-

est and most desirable of all the Privets for hedges and specimen. This is an unusually low price for this quality plant.
 12 to 18 in.\$10.00 per 100
Green Barberry. (Hedge grade.)
 12 to 18 in.\$8.00 per 100
Red Barberry. (Hedge grade.)
 15 to 18 in.\$12.00 per 100
Spiraea Van Houttei.
 18 to 24 in.\$9.00 per 100

TALLER HEDGES AND SCREENS

Bush Honeysuckle (Lonicera ruprechtiana).
 18 to 24 in.\$9.00 per 100
Lombardy Poplar.
 2 to 3 ft. whips\$10.00 per 100

Amur River North Privet Hedge

Moline Elm. Another desirable grafted tree. A beautiful straight grower—large glossy leaves. Perhaps the best street tree grown today for our section.

6 to 8 ft. \$1.50 each; \$2.75 a pair
 8 to 10 ft. 1.75 each; 3.00 a pair
Norway Maple. The well-known round-topped tree with large leaves which seem to drop at one time. Long-lived and with few enemies.
 7 to 8 ft., lightly branched,
 \$1.80 each; \$3.00 a pair
 8 to 10 ft. 2.50 each; 4.50 a pair
Silver Maple. The rapid growing tree with lacy, deep cut leaves. Rich fall coloring.
 6 to 8 ft., \$1.00 each; \$1.75 a pair
 8 to 10 ft., 1.50 each; 2.50 a pair
Sugar Maple (Hard Maple). This familiar tree richly deserves the popularity it is gaining. Long lived, well balanced, good foliage, which turns to rich autumn colors, are but a few of its attributes.
 6 to 8 ft., \$1.75 each; \$3.00 a pair
 8 to 10 ft., 2.50 each; 4.25 a pair
 10 to 12 ft., 3.50 each; 6.00 a pair

Pin Oak (*Quercus palustris*). The most popular and useful of all the Oaks. The leaves are glossy and deep lobed and in the fall change to gorgeous gowns of scarlet and red. The leaves persist well into the winter. The tree is symmetrical and sturdy. A truly superior street and lawn tree.

6 to 8 ft. ...\$2.50 each; \$4.50 a pair
 8 to 10 ft. ... 4.00 each; 7.50 a pair

SMALL ORNAMENTAL TREES

European Mountain Ash. A small tree with Ash-like leaves bearing white flowers in early summer followed by clusters of orange berries in the fall.

5 to 6 ft.\$1.25 each
 6 to 8 ft. 2.00 each

Cut Leaf Weeping Birch. White bark, lacy leaves, pendulous sweeping branches.

3 to 4 ft. ...\$1.10 each; \$2.00 a pair
 6 to 8 ft. ... 3.00 each; 5.00 a pair

Double Pink Flowering Weeping Cherries. Grafted tops on 6 ft. stems. These improved Weeping Cherries are cascades of double rose-pink blossoms in the spring. One of Japan's finest contributions to America.

6 to 7 ft. tall\$3.50 each; \$6.50 a pair

Bolleana Poplar. Slender, silver leaf poplar.

6 to 8 ft.\$1.10 each; three for \$2.95
 8 to 10 ft. 1.35 each; three for 3.75

Lombardy Poplar. Narrow upright poplar.

5 to 6 ft.\$0.40 each; three for \$1.00
 6 to 8 ft.50 each; three for 1.40

Pink Sweet Pea Tree, Robinia Kelseyi. A small flowering tree bearing long chains of clear pink flowers which appear before the leaves. One of the finest varieties of this family. These are own root and long lived.

4 to 5 ft.\$1.25 each; three for \$3.50

Redbud

Double Pink Flowering Weeping Cherries

Sycamore. Another tree for the lawn or street; grows rapidly and tolerates smoke and drouth. Picturesque white bark.

6 to 8 ft. ...\$2.00 each; \$3.50 a pair
 8 to 10 ft. ... 3.00 each; 5.00 a pair

Weeping Willows.

Elegantissima. Golden bark.

Babylonica. Green bark.

Wisconsin. Green bark.

4 to 5 ft. ...\$0.50 each; \$0.90 a pair
 5 to 6 ft. ... 1.00 each; 1.75 a pair

6 to 8 ft. ... 1.50 each; 2.50 a pair
 8 to 10 ft. ... 2.00 each; 3.50 a pair

European Mountain Ash

Hydrangea Tree. Tree form of the large, white, cone-shaped Hydrangea which turn pink in late summer.

3 ft.\$1.00 each; three for \$2.50

European Dogwood (*Cornus mascula*). Attractive yellow flowers appearing in spring before the leaves. Useful in sun or shade.

2 to 3 ft. ...\$0.75 each; three for \$2.00
 3 to 4 ft.90 each; three for 2.50

Redbud (*Cercis canadensis*) (Judas Tree).

3 to 4 ft.\$0.90 each
 4 to 5 ft. 1.25 each

The Prunus Family (Flowering Plums).

Prunus triloba. Double pink flowers, "quarter size," like a large glorified Flowering Almond.

Prunus pissardi. Dark purple leaves, pink flowers.

Prunus bliriana. Purple leaves, double pink flowers.

Prunus cistena. Purple leaved Sand Cherry. Dwarf and has glossier leaves. A substitute for Japanese maples.

2 to 3 ft. \$0.70 each; three for \$1.90
 3 to 4 ft. .80 each; three for 2.25

4 to 5 ft. .95 each; three for 2.75

The Flowering Crabapples. Four of the best.

1. **Thiefra** (Tea Crab). Dwarfest of the lot and spreading. A pink cloud when in bud. Small scarlet fruit.
 3 to 4 ft.\$1.00 each

2. **Floribunda.** Medium tall grower. A mass of single pink blooms. Branches are of spreading habit.
 3 to 4 ft.\$0.75 each
